

MATROL[®]

LUBRICANTS & CHEMICALS

We are 
Growing

Founded under the visionary leadership of **Mr. Manish Kawatra**, Delhi Oil & Chemical Company began its journey in the year 2000. From humble beginnings, we've grown into a pan-India force delivering high-performance industrial lubricants, coatings, and chemicals through our flagship brand – **Matrol**[®].

Matrol[®] – Engineering Industrial Excellence Since 2000

Founded under the visionary leadership of **Mr. Manish Kawatra**, Delhi Oil & Chemical Company began its journey in the year 2000. From humble beginnings, we've grown into a pan-India force delivering high-performance industrial oils, lubricants, coatings, and chemicals through our flagship brand – Matrol[®].

Over the last 20+ years, Matrol[®] has become synonymous with:

- ◆ Reliable Industrial Oils & Lubricants
- ◆ Precision Chemicals & Functional Coatings
- ◆ Customer-Centric Service & Technical Expertise

We proudly serve both B2B and B2C clients, empowering industries with solutions that are tailored, consistent, and built for peak performance.

Mission | Vision | Values

MISSION

To deliver world-class industrial solutions that drive performance, reduce downtime, and raise standards across every application we serve.

VISION

To build Matrol[®] into India's most trusted and innovative brand in oils, chemicals, and coatings – with a global mindset and a local soul.

CORE VALUES

- ◆ Quality Without Compromise
- ◆ Honesty in Every Drop
- ◆ Innovation with Purpose
- ◆ Long-Term Relationships
- ◆ Service Beyond Supply

Founder's Quote

"Matrol[®] was never just about products – it's about creating trust, transformation, and long-term impact in every drop we deliver."

– **Mr. Manish Kawatra, Founder**

Trusted by 1,000+ Industries Nationwide.

A brand built on trust, technology, and transformation – Matrol[®] is ready for the future. Are you?

OUR PRODUCTS

WATER SOLUBLE CUTTING OIL
HYDRAULIC OIL
INDUSTRIAL GEAR OIL
WHITE OIL
TRANSFORMER OIL
COMPRESSOR OIL
SHUTTERING OIL
EDM OIL
RUBBER PROCESSING OIL
SEWING MACHINE OIL
QUENCHING OIL
NEAT CUTTING OIL
STRAIGHT CUTTING OIL

LUBRICANTS

TOLUENE
DCP
STOVING THINNER
ACRYLIC THINNER
PU THINNER
NC THINNER
Crystal Chemical
ABS Chemical
PVC SOLVENT CEMENT

CHEMICALS

PP PRIMER
PP PRIMER RESIN
ACRYLIC PAINT
PU CLEAR
EVA PRIMER
EVA PRIMER RESIN
UV COATING
ACRYLIC SILVER
PU SILVER
PU HARDENER

COATINGS

Built to *Lube*
Backed to *Last*.

LUBRICANTS

From high-load gear systems to precision hydraulic setups, Matrol[®] Lubricants are engineered for endurance, efficiency, and smooth industrial operations. Our oils are formulated using high-grade base stocks and advanced additive chemistry – delivering consistent performance even in extreme conditions.

Whether you're powering machinery, running compressors, or protecting critical components, Matrol[®] keeps your operations running clean, cool, and uninterrupted.

Product Range:

- **Water Soluble Cutting Oil (Grindeasy 200/400)** – Emulsifiable coolant with excellent heat dissipation and anti-rust properties.
- **Hydraulic Oil (32/46/68)** – Ensures smooth, wear-resistant operation in hydraulic systems under high pressure.
- **Industrial Gear Oil (Grades: 220 / 320 / 460)** – Extreme pressure oils for gearboxes operating under shock loading and high torque.
- **White Oil (Grades: 70 / 150 / 500 / 600)** – Pure, odorless oil used in food-grade, cosmetic, and pharmaceutical applications.
- **Transformer Oil** – High dielectric strength for insulation and cooling in electrical transformers.
- **Compressor Oil** – Anti-oxidation, anti-foam lubricant for reciprocating and rotary compressors.
- **Shuttering Oil (Premium/Water-Based)** – Clean formwork release with superior surface finish and anti-stick performance.
- **EDM Oil** – Spark erosion oil with low viscosity and excellent flushing for precision machining.
- **Rubber Processing Oil (Grades: 245 / 255 / 710)** – Improves flexibility and workability of rubber compounds in manufacturing.
- **Quenching Oil** – Uniform heat transfer for metallurgical hardening with minimal distortion.
- **Neat Cutting Oil** – Undiluted oil for heavy-duty machining, reducing friction and tool wear.
- **Straight Cutting Oil** – Highly refined for deep cuts and high-speed turning under pressure.
- **Sewing Machine Oil** – Ultra-light, non-staining lubricant for smooth operation of textile equipment.

Built to Bond
Engineered to
Endure.

CHEMICALS

At Matrol[®], we offer a versatile range of industrial-grade chemicals designed for high-performance bonding, cleaning, processing, and finishing applications. Our formulations are trusted across industries like plastics, rubber, footwear, and electrical components.

Whether it's solvent-based adhesion, plastic-to-plastic bonding, or rubber processing, our products ensure reliability, strength, and consistency.

Product Range:

• Industrial Chemicals

- **Toluene** – Versatile solvent widely used in paints, thinners, adhesives, and rubber processing.
- **DCP** – Essential raw material used in paints, thinners, and industrial coatings.
- **Stoving Thinner** – For stoving enamels and heat-cured finishes; ensures smooth application.
- **Acrylic Thinner** – Enhances flow, gloss, and drying for acrylic-based coatings.
- **PU Thinner** – Designed for polyurethane systems; gives a clear and even finish.
- **NC Thinner** – For nitrocellulose lacquers; improves drying and surface levelling.
- **Crystal Chemical** – Solvent for clean plastic-to-plastic bonding in light-duty assemblies.
- **ABS Chemical** – Stronger formulation for high-strength ABS plastic bonding.
- **PVC Solvent Cement** – Heavy-duty, fast-drying solution for reliable PVC bonding.

**Built to Bond
Engineered to
Endure.**

COATINGS

Matrol[®] coatings are developed for specialty industrial applications—enhancing adhesion, improving finish, and offering protection across materials like plastics, metals, wood, and rubber.

From footwear to packaging, our coatings help improve surface compatibility and aesthetic quality while ensuring long-term durability and process efficiency.

Product Range:

PP Primer – Enhances surface adhesion on polypropylene plastics.

- **PP Primer Resin** – Resin-based variant for stronger chemical bonding on PP substrates.
- **Acrylic Paint** – Fast-drying, high-gloss paint for plastic and metal surfaces.
- **PU Clear** – Transparent polyurethane coating for gloss and surface protection.
- **EVA Primer** – Specialized primer for EVA soles to improve ink adhesion in the footwear industry.
- **UV Coating** – Fast-curing topcoat for added shine and scratch resistance.
- **Acrylic Silver** – Silver-shade acrylic coating with smooth metallic finish.
- **PU Silver** – Polyurethane-based silver coating offering durability and a premium look.
- **PU Hardener** – Cross-linking agent to enhance hardness and curing of PU coatings.

AUTOMOTIVE INDUSTRY

Engine oils, greases, and plastic bonding solutions for auto parts and assemblies

Widely used by gear, brake, clutch, and radiator product manufacturers

FOOTWEAR MANUFACTURING

EVA primers and strong plastic bonding solvents for EVA soles, uppers, and PU leather

Ideal for adhesive bonding in sports shoe and slipper production lines

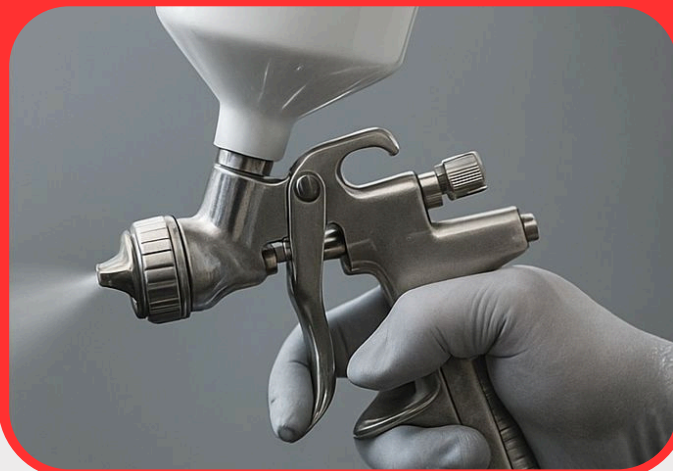

TOYS & INJECTION MOULDING

Plastic-compatible chemicals and coatings for toys, molded items, and plastic components

Crystal Chemical and ABS Chemical for high-strength plastic-to-plastic bonding

PAINTS, THINNERS & SOLVENTS

Bulk-grade toluene, acetone, DCP, and other industrial solvents for paint and thinner manufacturing Also used for surface coating of plastic parts like wheel covers, chair handles, helmets, and appliance shells

PRINTING & PACKAGING UNITS

Oils and cleaning chemicals for printing machinery, rollers, and die units

Solvent chemicals used for label printing, lamination, and packaging operations

TEXTILE & GARMENT INDUSTRY

High-performance lubricants for sewing machines, embroidery units, and finishing equipment

Used in both garment stitching hubs and textile machinery servicing

FURNITURE MANUFACTURING

Solvents for plastic and MDF bonding in modular furniture

* Used for edge-band pasting, foam adhesion, and coating purposes

CONSTRUCTION & INFRASTRUCTURE

Mould release oils, water-based shuttering oils, and industrial-grade coatings

Reliable performance across real estate and infra contractors

Engineered for Reliability. Chosen for Performance.

Every drop, every gram of **Matrol**[®] products is developed with a single goal – consistent industrial performance with zero compromise.

Our Product Strengths

- **Precision Formulation:**

Each chemical and lubricant is formulated with accurate viscosity, flash point, and bonding strength – ensuring industry-grade application.

- **Batch Consistency:**

Our in-house R&D and tight QC cycles guarantee uniform results across every batch – no surprises, no inconsistency.

- **Purity-Grade Solvents:**

High-clarity, low-impurity solvent chemicals for clean application, faster drying, and longer bonding durability.

- **Performance-Tested Lubricants:**

Matrol[®] lubricants undergo temperature and load testing for high-speed machinery, automotive parts, and hydraulic systems.

- **Eco-Friendly Options:**

Select products now available in water-based, low-VOC, or chlorine-free formulations for sustainable industries.

Matrol[®] Advantage

- **Private Labelling Available**

Bulk buyers and traders can access OEM options under their own brand names – backed by Matrol[®] quality.

- **Custom Formulation Support**

We offer tailored solutions for unique applications – be it bonding time, drying rate, or finish type.

- **Flexible Packaging Sizes**

From 100 ml to 210 litres – choose the right size for retail, industrial use, or export distribution.

- **Pan-India Logistics**

With reliable shipping and distributor networks, we deliver efficiently to metros, towns, and remote industrial zones.

“Matrol[®] doesn’t just sell products – we build industrial confidence.”

BULK SUPPLY & OEM SOLUTIONS

Matrol[®] as Your Bulk Supply Partner

With over two decades of expertise, **Matrol[®]** is trusted by India's leading manufacturers, exporters, and industrial units for consistent bulk supply of lubricants, chemicals, and coatings. Whether you're running high-speed production units or managing supply chains across regions, we ensure timely delivery, custom packaging, and reliable technical support.

Industries We Serve in Bulk

We cater to large-scale manufacturers, B2B clients, and OEMs across the following verticals:

1. Automotive Components
 - Gear, brake, clutch, and radiator component manufacturers
 - High-speed metal cutting and machining units
2. Footwear Manufacturing (EVA, PVC, Rubber)
 - Sole injection units, ink printing lines, assembly plants
3. Toys & Injection Molding Units
 - ABS, PVC, HDPE based plastic molders and toy exporters
4. Paints, Thinners & Solvent-based Industries
 - Paint refiners, thinner blenders, alkyd & NC-based operations
5. Printing & Packaging Units
 - Flexo & rotogravure presses, varnish lines, UV coating users
6. Textile & Garment Manufacturing
 - Sewing machine maintenance, dyeing houses, printing labs
7. Furniture Manufacturers
 - Wood polishers, varnish coaters, MDF panel makers
8. Construction Chemical Manufacturers
 - Builders, shuttering contractors, RMC and civil infra firms

OEM & Private Label Solutions

We also offer OEM supply and white-label services for distributors, exporters, and allied industries. Custom formulation, packaging, and branding options are available to support your product goals.

Why Choose Matrol[®] for Bulk & OEM?

-  Pan-India Logistics with warehousing & dispatch support
-  Batch-to-batch consistency with strict quality controls
-  Volume pricing, competitive margins, and fast TATs
-  Dedicated support team for industrial clients
-  Custom grade development on demand

The Matrol® Edge

For over 20 years, Matrol® has been a name that industries across India rely on — delivering high-performance lubricants, chemicals, and coatings built to withstand demanding conditions.

What makes us different?

- Consistent Quality Across Batches
- Pan-India Supply Network
- Custom Formulations for OEMs
- Dealer & Industrial Partnership Support
- Technical Guidance from Experts

Whether you're running a workshop, factory, dealership, or distribution network — Matrol® backs your growth with precision, performance, and trust.
